macOS, Windows

PROFESSIONAL EXPERIENCE

(October 2022 – Present)

Accenture Inc.

Multiplatform Frontend Developer Sr Analyst

- + Built new components and pages using React JS, Next JS, Redux, and Storybook to enhance UI/UX consistency and reusability.
- + Transformed designs (PSD/XD/Figma) into responsive code.
- + Created and maintained Storybook components for scalable UI development.
- + Integrated and consumed RESTful and GraphQL APIs to enable dynamic data-driven applications.
- + Designed reusable API services and handled authentication, error handling, and performance optimization.

- + Configured builds, tested applications, and optimized technology architecture.
- + Ensured all custom components and API integrations met performance goals and business requirements.
- + Led the team to complete backlog tickets efficiently.
- + Led the team through Agile sprints and served as Scrum Master on a GenAI project.
- + Reviewed pull requests (PRs) before merging with the development branch.
- + Managed CI/CD pipelines on servers to streamline deployment processes.
- + Collaborated with developers, designers, and architects to meet project goals.
- + Communicated issues and dependencies with the technology architect and project manager.
- + Planned project structures and development workflows before implementation.
- + Attended company training sessions to stay updated on new technologies and best practices.
